“This transaction represents a transformational moment for both Diamondback and Energen shareholders as they are set to benefit from owning the premier large cap Permian independent with industry leading production growth, operating efficiency, margins and capital productivity supporting an increasing capital return program. The Energen team has done an outstanding job assembling a portfolio of Tier One acreage in both the Midland and Delaware basins, which, when combined with Diamondback’s current portfolio, will present an extended runway for Diamondback’s record of best-in-class execution and low-cost operations. This transaction also adds critical mass for driving capital efficiencies in what is now truly becoming a manufacturing business. I expect the pro forma company to be able to grow at industry leading rates while returning capital at a competitive yield,” stated Travis Stice, Chief Executive Officer of Diamondback.

Mr. Stice continued, “We look forward to welcoming Energen’s employees as members of the Diamondback team, and applaud them for the hard work and dedication they have put forth to create this opportunity for the two teams to become one. The synergies provided in this transaction, as well as the opportunities for capital improvements provided by increased size and scale, create a truly outstanding value proposition. The combined company’s expected production growth, capital productivity and cost structure will enhance our free cash flow profile to grow our long-term capital return program.”

James McManus, Chairman and Chief Executive Officer of Energen, stated, “We are very pleased about this transaction and believe the combination of the two companies’ quality assets, track record of execution, and peer-leading cost structures will form an even stronger, large-cap independent producer uniquely positioned to drive growth and development in the Permian Basin. This transaction is the outcome of a comprehensive strategic review by Energen’s Board with the assistance of our outside advisors. The process examined our business plan, competitive positioning, and strategic alternatives. We believe this all-stock transaction with Diamondback is the best path forward for our company and provides Energen shareholders with an excellent value for their investment, now and in the future.”

Mr. McManus added, “I also want to take this opportunity to recognize Energen’s biggest strength, our employees, and publicly thank them for their dedication and hard work in driving Energen’s success.”
